

Vent Silencer – High Capacity

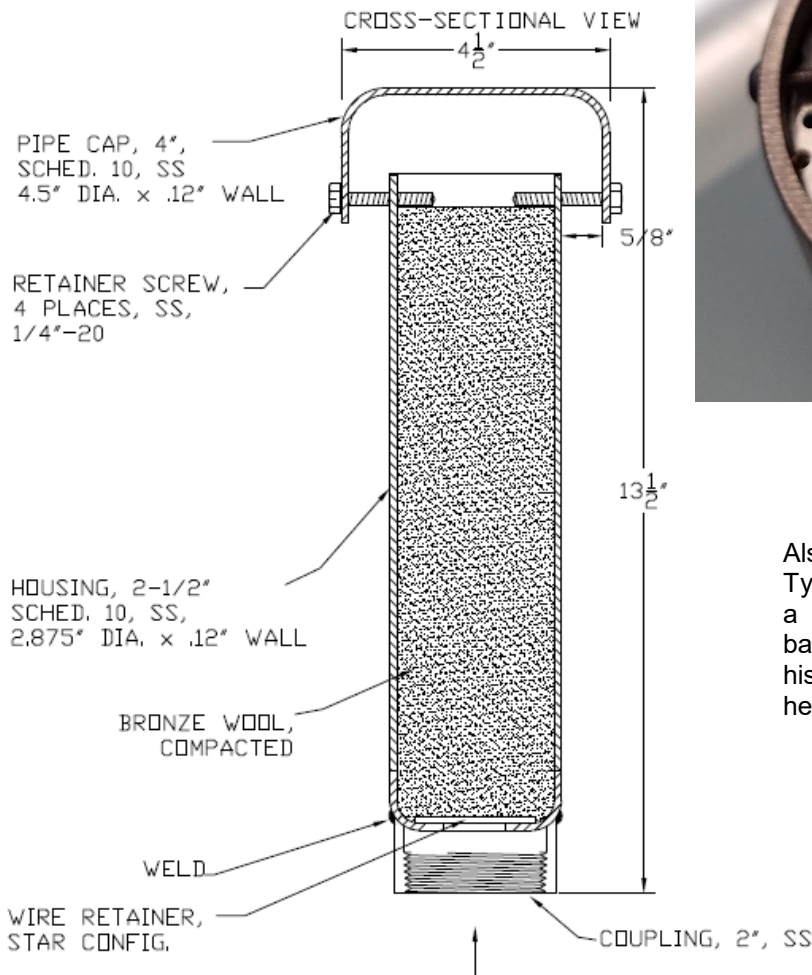

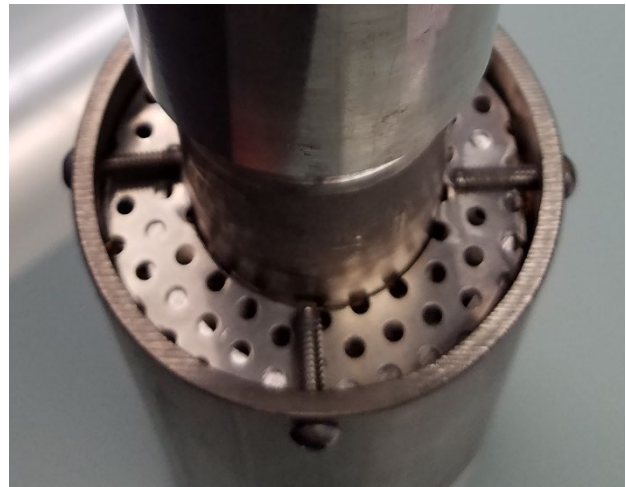

Spec Sheet

The CryoVation vent silencers can muffle your vent lines and make your employees, customers and neighbors happier. Noise level is reduced to only 5 decibels over ambient from 30 feet. They are qualified for oxygen service, easy to install and virtually no maintenance.

High volume unit shown, stainless steel housing with bronze wool packing and 2” inlet (Option for 3/4”)

- PN: 1736-6580 SS, 2” Inlet
- PN: 1736-6570 SS, 3/4” Inlet
- PN: 1736-6550 Copper/Brass, 2” Inlet

Also available, mini vent silencer. Typically used on the vent side of a liquid vessel, the typical loud bang of a VGL will now be a soft hiss. Sold as an assembly or just he silencer alone.

PN: 1736-6579
